

** ANTARCTICA. 15475.98 RC USB, UT Sun Feb 25 at 0007, LRA36 is on, presumably from 2300 in regular Saturday broadcast, 0008 the 'Antarctica' song, 0012 Spanish ID as live while they are 'making sovereignty' in this part of 'Argentina', contact info. VG S7/9+10 into Argentine SDR (Glenn Hauser, OK, WOR)

** BELIZE. 28386 USB, Feb 28 at 2309, V30 calling CQ Japan. Call clearly with fonetix. QRZ.com:
V30 Belize flag Belize, Uwe Dowidat, Mayahill / Belmopan, Belmopan, Belize -- more about temp op: <https://www.qrz.com/db/V30>
(Glenn Hauser, OK, WOR)

** BRAZIL. 15415, Feb 22 at 0300, VP S5/S7 Portuguese into Mendoza, Argentina SDR, so R. Clube de Ribeirão Preto still pretending to be a SW station until it can convert to FM (Glenn Hauser, OK, WOR)

** CANADA [and non]. 258 MCW kHz, Feb 26 at 0727 UT, dash and ZSJ, no doubt about it this time unlike Feb 20 log, per RNA is 500 watts from Sandy Lake, Ontario; dxinfocentre.com shows power 1000 watts. They often disagree.

The *real* ZSJ is, or was, naval marine radio on HF from Cape Town, South Africa. You may play it at the very bottom of:
<https://www.radiomarine.org/coast-station-recordings>
(Glenn Hauser, OK, WOR)

** CHINA. 18900, Feb 26 at 2313, weak Chinese, not on 18970, only other known frequency on band, leading to: Survey of mostly JBA carriers direct with Doppler flutter, surely CNR1 jammers or possibly Firedragon, to block Sound of Hope, Feb 26 at 2313-2317: 16160, 16100, 15970, 15920, 14980, 14920, 13920, 13530, 13020. Not in the exact order tuned; none audible just below 13 MHz. Also should have been others inband but was checking only way-out-of-band (Glenn Hauser, OK, WOR)

** CUBA. 12000, Feb 24 at 0653, RHC English JBA on 2 x 6000, where it's S9+20/30 undermodulated. Correlating nicely with good 12 MHz prop from Cuba: pulse jamming on 12060, S3/S4, 2 x 6030 against Martí but no trace of victim here; also jam on 11930, see ROMANIA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sun Feb 25 at 1607, RHC in weekly Esperanto, S8/S9 undermodulated, // much better 11760, S9/+5. I bet they still fail to announce 15140, which tries to be on. Circa 07 UT Sunday, RHC found nowhere, so likely no Espo at 08. When and where will be the third broadcast Sunday afternoon? Io ĉiam misas ĉe RHC (Glenn Hauser, OK, WOR)

** CUBA. 15230, Feb 27 at 2313, RHC S9/+10 but JBM, sup/torted. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11740-11780 approx., Feb 27 at 2317 hash sounds somewhat like

DRM at spots, but not this wide. Obviously out of 11760 RHC transmitter, S9+30/40 and noise also infesting center frequency. Something's always wrong at RHC. The Other Side:

`Cuba's health crisis spawns a surge in the black market for medicines

Antibiotics selling for 600 to 1,500 pesos, blister packs of Vitamin B for 450, Bactrim for 400, benzathine penicillin for 1,000 pesos per vial... Alberto Martínez, La Habana, 23 Feb 2024 - 23:55 CET`

https://diariodecuba.com/cuba/1708728936_53078.html

One may also subscribe for a new story in English every few days, or lots more available in Spanish (Glenn Hauser, OK, WOR)

** CUBA. 5025, Feb 28 at 0134, R. Rebelde is off again. Something's always wrong at wRadioCuba. 4765, R. Progreso, however, is not off (Glenn Hauser, OK, WOR)

** DENMARK. 25800, Feb 24 at 1619, JBA carrier, presumed World Music Radio. I always check for this direct along with 25900 BBC WOF after 1600, but first time have had any trace; supposedly sked 24/7. BBC no stronger than usual. Still no trace of also 24/7 WMR on 15700, from two different sites, 300 or 600 watts (Glenn Hauser, OK, WOR)

** DENMARK. 25800, Feb 25 at 1606, JBA carrier again from presumed World Music Radio; if really wanted to hear it, would try some remotes; but plenty of music already available (Glenn Hauser, OK, WOR)

** ECUADOR. 6050, Feb 22 at 0225, HCJB reactivated but not enough to overcome high noise level here. Pardinho Brasil SDR barely gets it, but sufficient into Mendoza, Argentina, altho fluttery as if trans-polar instead of merely equatorial. Andean music with announcements in local language, not Spanish. 0230 s/off in Spanish, to return at 4:25 am [0925 UT] in Quechua, national anthem: a longer version than I remembered, the familiar notes in the middle, finished at 0233*. Tnx to this:

`From: RAFAEL RODRIGUEZ <rafaelcoldx@yahoo.com>

Sent: Tuesday, February 20, 2024 at 01:11:37 AM GMT+1

HCJB 6050 khz signal from Ecuador has been reactivated. Listen today 19 feb. at 2130 UTC, retransmitting the 89.3 FM signal, Mention other FM relays " ...HCJB...92.5 Manabí, 98.3 Esmeraldas, 96.1 Tungurahua y Cotopaxi..." With overmodulation in the signal.

FM programming continued after 2300 and 0000 UTC, when until December they presented programming for the Kichwa and Shuar ethnic groups. Rafael Rodríguez R., Bogotá, Colombia`

6050 used to run until 0230v* except weekends to 0500*. WRTH 2024 shows *0925 in Quechua and other language segments, pp 546/547 (Glenn Hauser, OK, WORLD OF RADIO 2231)

** FRANCE. 15710.102, Feb 24 at 1620, talk in language, S9 direct, estimated 15710.1; 1625, S9+5/15 into UTwente when measured; it's ISS with Sat-only broadcast at 1600 of RMI-brokered Moresh Voice of Amhara, clandestine for Ethiopia in Amharic; chopoff in progress at 1630*. Something's always inexact at Issoudun (Glenn Hauser, OK, WOR)

** FRANCE. 7295-7300-7305, Feb 27 at 0752, S9+20 of DRM noise, no doubt the previously identified 0730-0800 from ISSoudun, irregular (Glenn Hauser, OK, WOR)

** GUAM. 17570, Feb 27 at 2310, S9+10 YL talk sounds like Cambodian: yes, KSDA Khmer scheduled this semihour (Glenn Hauser, OK, WOR)

** IRELAND. 13264 USB, Feb 26 at 2317, VOLMET by YL voice. Shannon sked 24h here (Glenn Hauser, OK, WOR)

** LIBERIA. 6050, Feb 25 circa 07 UT, JBA carrier in bandscan, surely this:

``Manuel Méndez, Log in Lugo, NW of Spain, Sangean ATS 909X, cable antenna, 8 meters: 6050, ELWA Radio, Monrovia, back after 3 days of absence, *0600-0635, 25-02, open with religious songs in English, at 0616 male, English, ID "ELWA Radio from Monrovia, Liberia..", religious comments, male, female, more religious songs. 25432`` (Glenn Hauser, OK, WOR)

** MEXICO. 28171 CW, Feb 28 at 2306, beacon XE1FAS/B and four dashes step-down power. Keying a bit rough: surely automated, but originally may have been hand-keyed. QRZ.com:

XE1FAS Mexico flag Mexico SEGURA WALLS ALEJANDRO, 31 PONIENTE 2926 COL.EL VERGEL, PUEBLA, PU 72410, Mexico

``BEACONS: 28.171, 24.929.5, 50.030 ALL CW (XE1FAS/B EK09VB) 15 WATTS, LOOP ANTENA TRIBANDER, OPERATED INTERVAL 20 SECONDS, 2260 MTS HIGH, I APPRECIATED A REPORT, FIRST MEXICAN BEACON IN 12 MTS AND 160 MTS, BEACON IN 2.000 KHZ 160 MTS BAND 3 WATTS ANT QUARTER VERTICAL ANTENA, IN OCTOBER APROX PUT IN THE AIR 472-479 HZ NEW BEACON.``

Lots of photos of equipment, people:

<https://www.qrz.com/db/XE1FAS>

Previously logged several times in 2022, 2023 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.95V, Feb 26 at 0710, presumed Hikari FM, pirate in Arizona or Sonora, finally some barely audible modulation. Unstable and seems two carrier peaks, neither right on 11515.000 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 267 MCW kHz, Feb 26 at 0729 UT, HET, 25-watt NDB at HenryEtTa; but better copy tuned to 265 USB. In 2007y someone reported it on 263. Occasionally noted but not always logged, JBA vs noise level. RNA and DXinfocentre.com show it the only 267 anywhere! Clear channel worldwide. City-to-city distance: 201 km = 125 stmi (Glenn Hauser, Enid, WOR)

** ROMANIA. 11930, Feb 23 at 0652, surprised to encounter something in English, S7/S9 direct, in fact the SS0B = strongest signal on band.

Normally nothing but leftover Cuban jamming against R. Martí, but none audible now. EiBi shows the only 11930 besides RM at 14-01 is RRI Galbeni to Europe at 0630-0700; Aoki lax RRI but adds Riyadh, Sa'udi Arabia in Arabic at 1755-2257. Is that really on air? We could hardly notice it here vs the Cuban radio war. Std remark about avoiding any frequency ever jammed by Cuba, tho RRI in luck this time. Aoki also fails to * Martí as jammed! nor does EiBi show any separate entries for noise jamming. HFCC nothing but RM and RRI but the latter as N = DRM! 90 kW 300 degrees from Galbeni: certainly not, this in AM. Not in dmr.org either. RRI own B23 English sked shows only two DRM frequencies elsewhen, not including 11930:
https://www.rrr.ro/en_gb/frecvente-259 (Glenn Hauser, OK, WOR)

** ROMANIA [and non]. 11930, Feb 24 at 0651, RRI English much weaker than last night, S6/S2 and now bothered by extraneous Cuban jamming against no Martí. Std remark about never picking a frequency *ever* jammed by Cuba (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Fri Feb 23 at 2300, token English from SNR, sufficient direct on DX-390 with clipon, 2301 news, first items about a major fire, and corruption case concerning COVID masks; much better on R75 with shortwire: 2309 contact info by Justin Coe, including they especially enjoy postal mail; as if he were still there. 2310 feature interview with an expert about the impending 2nd anniversary of Russia's war on Ukraine (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Monday Feb 26 at 2300, token English from SNR, feature preview and news, good direct; 2310 first item, interview with Iberia, bilingual publisher, about to come out Irish writers on Spain; second to be 10th anniversary of death of flamenco guitarist Paco de Lucía (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Feb 28 at 2300, token English from SNR, S9+20/30 direct, first about leap years and some famous people who died during them, not specifically on Leap Day. 2302.5 news. 2309 interview about rare diseases, 6113? of them, many not diagnosed (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.005, Feb 23 at 2308, VOT English a JBA carrier direct vs HLNL. 2333 into UTwente, when measured, S9+30/35, during 'Turkish Folk Tales'; 2337 ``with-you-every-hour`` promo, music; 2342 ``always-by-your-side`` promo, 'That's Why' voiced by the badax so I have no idea of the subject; 6CI undercurrent. 2348 ``w-y-e-h`` again, music. 2353 s/off for the 1330 broadcast only, 2354 IS; still on at 0000 Feb 24 timesignal, into German. On & on, same liners/jingles/themes as in English. 0059 recheck *still* on air with IS, 0100 s/on Luso-Portuguese! Takes about 2 minutes to recite all the satellite parameters, etc., not copied in detail but with Turkish times, one at 22h and this one at 04. Supposedly no Portuguese at all, but someone recently heard them announce 7280 at this time, so now intentional? Time yes, but nothing on 7280. By 0103 I recheck 5960: now it's suddenly off, uncovering Chinese from XJRTV, EAST TURKISTAN, land of imperialist ChiCom genocide against Uyghurs and other Muslims;

trying to outdo Turkey against the Armenians? 0104 I check 7280 again and *now* it is on in Portuguese, VG really 7280.006. Somethings` always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.007, Feb 24 at 2257 VOT not off the air, IS & English IDs, 2300 s/on and news starting with Ukraine war a biyear on, S9+40/45 into UTwente. 2325 something about drag queens? Maybe misunderstood as am splitting attention with three other radio/TV programs! 2328 outro segment as `Turkey`s Geomarked [sic] Products`, ``with-you-every-hour`` promo, mostly music, 2348 again ``w-y-e-h``. 2353 s/off as if the 1330 broadcast only, and IS. 2356 pause and restart IS now with German IDs. 0000 Feb 25 still on with TS a few sex behind understation XJRTV and then the ChiCom anthem, into German programming, yet another overrun instance by erroneous Emirler. Still going with mailbag at 0018; could chop off at any time - or not (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.004, Sun Feb 25 at 2319, S9+40/45 into UTwente, VOT in `Letterbox` already, host recalling he visited Alabama and Florida long ago, due to report from Orlando? Someone complains about how hard it is to find anything about VOT on the TRT website, to which he has no comment. Also from India, and the last one from Australia, as time is running out - despite widely variable start and length and lots of music fill elsewhen; 2328 ``Goodbye dear listeners, I love all of you.`` After a song, 2333 Letterbox intro/outro theme played by mistake: something`s always awry at Ankara; more music. 2354 s/off for 1330 broadcast only, only first 6 notes of IS before chopoff 2355* uncovering the CCCCCCI from XJRTV, East Turkistan, std genocidal denunciations (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.002, Feb 26 at 2309 direct, I can tell VOT is on but not enough to break the noise level. 2330 into UTwente, when measured, S9+40/45 music and nothing but more songs until 2354 s/off and a few sex of IS, chopoff before 2355* uncovering XJRTV, etc., etc. Was lack of spoken programming Ankara awry or Emirler erroneous? (Glenn Hauser, OK, WOR)

** TURKEY. 5960.005, Feb 27 at 2300, I can tell VOT is on direct but no match for noise level. From 2343 via UTwente, when measured, S9+25/40 with nothing but music including 2350 horrible Turkish rap? 2353, s/off for 1330 broadcast only, with XJRTV understation quite audible. 2354 IS. 2356 restart IS with German IDs. Chopoff at 2357.4* uncovering Chinese from EAST TURKISTAN, land of imperialist ChiCom genocide against Uyghurs and other Moslems, vs the century-old Ottoman genocide against Armenians (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960v, Feb 28 at 2300, no signal direct from VOT English. Checking UTwente at 2333: nothing but Chinese on 5960.000, XJRTV no longer an understation, std. genocidal denunciation. So is VOT overrunning on 9610? Not there either, something else weak, presumably CNR Mongolian from Beijing site. Still no show of VOT eitherfreq by 2355. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U S A. 8992 USB, Feb 26 at 1555 tune-in just as ending message of ``39 characters, Big Time, out``. This is an Emergency Action Message - or only a test? from USAF Global Communications HFGCS. A barely legible map in Feb CIDX Messenger shows locations: Hawaii, Elmendorf AK, West Coast, Offutt NE, Grand Forks ND, Andrews MD, Puerto Rico, Ascension, South Atlantic[Falklands?], Lajes Azores, Croughton UK, Sigonella Italy, Diego Garcia, Guam, Yokota Japan. No doubt this from one of the closest inside the eastern 48.

BTW, we should be especially fond of Diego Garcia, main island of the BIOT, since our .io groups are HQ there! At least by domain. I was about to remark, D.G. was discovered by Portuguese, so no accent on the i - until I found this confuser: ``Diego García de Moguer was a Spanish explorer who also sailed for the Portuguese Crown later in life. Wikipedia. Born: 1484, Moguer, Spain. Died: 1544 (age 60 years), Indian Ocean``. Maybe compromise with grave rather than acute: Garcia. But should the c be lithped Castilianwise? (Glenn Hauser, OK, WOR)

** U S A. 12788 USB, Feb 26 at 2319 marine weather for N Atlantic, including ``seas`` which means how wavy, by OM voice, VG. EiBi shows NMG, USCG New Orleans here with several segments such as 2315-2350, not continuous (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2230 monitoring: confirmed UT Thursday February 22 at 0130 on WRMI 5010, JBA into Brasil SDR where it's aimed, but S9+20/30 oppositely into Georgia SDR.

Also confirmed UT Thursday February 22 at 0235 the 0230 on WRMI 9395, sufficient direct into my new D-808 even with telescopic antenna collapsed.

``9395 kHz, 0230, 0245, 0258 (55433), 0259, February 22 UTC 2024 [Thu] (Lemke, Richard -AB)``

Still reconfirmed NOT on WRMI 9955, Thursday Feb 22 from 1500 as on skedgrid: rather something else at 1525; WOR axually 24 hours earlier.

Also confirmed Thursday February 22 at 1746 the 1730 on SW Radio, Germany, 3975.001, S9+10/15 into UTwente.

WORLD OF RADIO 2231 contents: Andorra non, Antarctica and non, (Australia), Brasil, Canada and non, Congo, Cuba, Ecuador, Estonia and non, Ethiopia, France, Germany and non, Iceland, India, Indonesia, Maldives non, Mongolia, Myanmar and non, Netherlands, New Zealand, Pakistan, Perú, Russia, (Sa`udi Arabia), Swaziland, (Taiwan), Turkey, (UK), USA, Vanuatu, Vietnam and non, Yemen non; no Etón Elite Satellit radio; The Magical Wireless; propagation outlook - (countries mentioned along with others not in order)

1730 UT Thursday SW Radio, Germany 3975
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2231 monitoring: confirmed UT
Sunday February 25 at 0100 on WRMI 9955, S9/+20, no jamming audible.

Also confirmed UT Sunday February 25 at 0513 on WA0RCR, 1860 AM, MO,
VG into nearby SDR but with SSB ACI, testers? about 6 minutes into
so the 0415v started very late circa 0507.

Again zzzz thru 1130 Sun Feb 25 on WRMI 9955; anyone hear it? Next:

2100 UT Sunday IRRS 1323-Italy
2230 UT Sunday SW Radio, Germany 3975
0030 UT Monday WRMI 7780 to SW
0400vUT Monday WBCQ Area 51 6160v to WSW
0930 UT Monday SW Radio, Germany 6160
2030 UT Monday SW Radio, Germany 3975
0330 UT Tuesday WRMI 7780 to SW
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?]
0030 UT Wednesday WRMI 9395 to NNW
1200 UT Wednesday Unique R, NSW 5035-USB or 3210-USB
1230 UT Wednesday Unique R, NSW 5035-USB or 3210-USB
[previous #2229][SW suspended but still streamed?]
1500 UT Wednesday WRMI 9955 [unsked but reconfirmed every 2024 week]
2030 UT Wednesday SW Radio, Germany 3975
2200 UT Wednesday WBCQ 7490v to WSW,
0130 UT Thursday WRMI 5010 to S
0230 UT Thursday WRMI 9395 to NNW
1730 UT Thursday SW Radio, Germany 3975
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2231 monitoring: Also confirmed
Sunday February 25 from 2100.5 in IRRS via AM Italia, 1322.997, S8/S9
into UTwente across Europe.

Also confirmed Sunday February 25 at 2255 the 2230 on SW Radio,
Germany, 3975.004, S9 into UTwente.

Also confirmed UT Monday February 26 at 0030 on WRMI 7780, S9/+15 into
reactivated Louisiana SDR.

Also confirmed UT Monday February 26 from 0359 on Area 51 via WBCQ
6159.935, S7/S8 into Maryland SDR.

Also confirmed Monday February 26 at 2043 the 2030 on SW Radio, Germany, S8/9+5 but noisy into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?]
0030 UT Wednesday WRMI 9395 to NNW
1200 UT Wednesday Unique R, NSW 5035-USB or 3210-USB
1230 UT Wednesday Unique R, NSW 5035-USB or 3210-USB
[previous #2229][SW suspended but still streamed?]
1500 UT Wednesday WRMI 9955 [unsked but reconfirmed every 2024 week]
2030 UT Wednesday SW Radio, Germany 3975
2200 UT Wednesday WBCQ 7490v to WSW,
0130 UT Thursday WRMI 5010 to S
0230 UT Thursday WRMI 9395 to NNW
1730 UT Thursday SW Radio, Germany 3975
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2231 monitoring: confirmed UT Tuesday February 27 at 0330 on WRMI 7780, S8/9+10 into Louisiana SDR.

Also confirmed Tuesday February 27 at 1400 on WRMI 9955, S9/+20, no jamming audible. Next:

0030 UT Wednesday WRMI 9395 to NNW
1200 UT Wednesday Unique R, NSW 5035-USB or 3210-USB
1230 UT Wednesday Unique R, NSW 5035-USB or 3210-USB
[previous #2230][SW suspended but still streamed?]
1500 UT Wednesday WRMI 9955 [unsked but reconfirmed every 2024 week]
2030 UT Wednesday SW Radio, Germany 3975
2200 UT Wednesday WBCQ 7490v to WSW,
0130 UT Thursday WRMI 5010 to S
0230 UT Thursday WRMI 9395 to NNW
1730 UT Thursday SW Radio, Germany 3975
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2231 monitoring: confirmed UT Wednesday February 28 at 0030 on WRMI 9395, S9+20 into Missouri SDR.

Not confirmed Wed Feb 28 at 1527 the secret 1500 on WRMI 9955: at first I wonder if that's me at imagination-level in the noise; then realize it's off the air, while 9395 & 9455 are still propagating. And too late to check the webstream. Anyone hear it start at 1500 or on stream?

Confirmed Wednesday February 28 at 2030 on SW Radio, Germany, 3975.001, S9+10 into UTwente.

Also confirmed Wednesday February 28 at 2200 on WBCQ, 7489.949, S7/9+5 into Maryland SDR at 2124 when I set up to record the entire WOR slot: apparently aired intact unlike last week. Meanwhile, reception direct: 2200 JBA can't be sure it's me; 2228 VP but now can tell it's #2231 with last week's propagation outlook. Next:

0130 UT Thursday WRMI 5010 to S {confirmed}
0230 UT Thursday WRMI 9395 to NNW
1730 UT Thursday SW Radio, Germany 3975

As noncommercial services, financial support appreciated. Thanks this week for a very generous Anonymous contribution to Glenn Hauser, PO Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. Pre- `AAAWWW` WBCQ check, UT Sat Feb 24 at 0035 into Maryland SDR:

3265+, OFF

5130.252, ATATT = All-Trump-[almost]-All-the-time, S7/S9

6159.931, TOMBS, S6/S8

7489.951, FKB gh, S9+10/20

9330.000, WLCR Portuguese, S9+10/20

Spotchex of AAAWWW hour after 0100 on 7490: seems to be new tho no datestamp heard even during ID break at 0138 when it seemed he was about to. From Fla, mentioning something in early March. Topix include global warming, EV batteries, not knowing how to operate cars with standard shifts. Says has a 100 kW rig in storage; BCQ will always remain as analog as possible, still operable in disaster (Glenn Hauser, OK, WOR)

** U S A. 5130+v, Feb 28 at 0718, no signal from WBCQ `All Trump All The Time`, unusual, supposedly 24/7. Propagation? 6159.9v with TOMBS is audible. Usually about 5130.3, tho last time I tuned across, closer to 5130.2. Should be audible daytime into NH SDR: still absent at 1715, but 6160v VG. Tsk2, one can never get enough Drumpf (Glenn Hauser, OK, WOR)

** U S A. 15770, Tue Feb 27 at 2000, WRMI going from VOA `Flashpoint Global Crisis` - tho still on skedgrid as merely `Flashpoint Ukraine`; into `VORW`. John introses it as for Mon Feb 26 on WWCR 4840! Wrong file, or incomplete reference? Roughly first half he cites the `news`, second half into music. Checking because earlier today at 1300, 15770 was reported to be off instead of `Encore` (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Feb 24 at 0131 and any other times checked, still no signal from WTTW-2. Just as I was starting to write this item, George McClintock called with an update. Has been off the air because Ted had wired the tuning mechanism backwards; when trying to tune beyond mid-range, it broke. Will try to tune manually, maybe back on air tonight. Continental guy has been working on #1 transmitter; says it is not just repairing but restoring, as *everything* was wrong tnx to Ted. The Harris #3 transmitter is also being worked on. WORLD OF RADIO already started airing a week or two ago but at unscheduled time. Maybe now at 0500 UT, Saturday or Sunday? (Glenn Hauser, OK, WOR)

** U S A. 5085, Feb 28 at 0019, WTTW-2 is back on after a few days

off, presumably with SFAW in very rapid check. Ditto some 24 hours later (Glenn Hauser, OK, WOR)

** U S A. 7505, Feb 24 at 0203, WRNO, S9+25 of dead air into Maryland SDR, but gospel huxter speaks in about a minute. Something's fouled up in Fort Worth, and/or messed up in Metairie (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Feb 25 at 0706, RV missing again, nor on 7890, 9960 (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Feb 26 at 0716, no signal again from R. Vanuatu, nor on 7890, 9960 (Glenn Hauser, OK, WOR)

** VATICAN. 9710, Feb 25 at 0704 VR IS, S7/S9, overcoming noiselevel of S5/S7, 0705 opening Ukrainian, as scheduled Sundays only until 0800. Note: altho I do not bother with it, the Santa Maria di Galeria site is not in VC proper, but some distance away otherwise in Italy, or ``Vatican City Extraterritorial Area`` as they say in MARE. WRTH does not even make any note of this. Country-counters may squabble about whether there be two or three radio-countries around Roma. There used to be a small SW transmitter inside VC (Glenn Hauser, OK, WOR)

** VENEZOMBIA. 4940, Feb 28 at 0135, Estación 4940 is missing, nor on later tonight (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA MW carrier search, Feb 24 at 0217-0228: 531?, 684, 693, 774-2, 855-2, 909, 1044, 1053-2, 1089, 1107, 1125, 1314-2. Not a -1 kHz USB offset complete scan, but one-by-one. -2 means two carriers beating, a common situation from Spain on 774, 855; one is slow, the other faster. 1314 is unusual; both Spain and Romania have three medium-powers each (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA MW carrier search, thoro bandscan on R75 with internal N/S shortwire as the Wellbrook loop is out of service, Feb 25 at 0226-0233 UT, by 9-kHz steps one kHz below in USB tuning: 684, 693, 711, 774-2, 855, 891-2, 963 only 3 kHz from local KGWA 960, 999, 1044, 1053, 1089, 1098, 1125-2, 1215, 1305, 1314, 1431, 1503.

Unusual for a beat on 891, $140/\text{minute} = 2.33 \text{ Hz}$. mwoffsets and mwlist indicate by power, precision, activity, time and geography, the station other than Algeria on 890.997 would be IRAN on exactly 891.0000, Radio Dena at Deh Dasht.

Then for a change, I switch to LSB tuning from 1 kHz above the 9/kHz frequencies, and downward from 0234 UT: this should favor uncovering some others especially ending in 9, 8 or 7: 1386 only 4 kHz below local KCRC 1390; 1179, 1125, 1107, 1089, 909, 882, 855, 837, 819, 774, 729, 711, 693, 684, 549, 531 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5877 USB, Feb 26 at 0724, JBA 2-way not Spanish (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7675-7718 approx., Feb 27 at 0749, multi-carrier,
multi-tonal uteblob but not very strong (Glenn Hauser, OK, WOR)

TIPS FOR RATIONAL LIVING

The Exvangelicals

Loving, Living, and Leaving the White Evangelical Church

Author: Sarah McCammon

<https://us.macmillan.com/books/9781250284471/theexvangelicals>

[typoed heading at first: ``RADIONAL`` -- hmm, become a thing?]
